Authorization for this examiner's amendment was given in a telephone interview with Matthew M. Jacob on May 12, 2004. The application has been amended as follows:

### ***Reasons for Allowance***

4. The following is an examiner's statement of reasons for allowance:

Claims 1-4 are neither anticipated nor rendered obvious over the art of record, and therefore are allowable. This invention relates to 2-oxo-1-pyrrolidine derivatives. The closest prior art is Honore et al. GB1309692, disclose a pyrrolidine compound for treatment of epilepsy. The difference between prior art and instant claims is that the variable R<sup>5</sup> of prior art does not represent tetrazolyl or thiazolyl. Suggestion for modification of above reference to obtain the instant compounds/compositions and methods of use, has not been found. Claims 1-4 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
